PRODUCT FAMILY GUIDE

# 8-Stage Alkaline Water Purifier in Dubai, UAE

Advanced multi-stage water purification for your home, with RO, UV and alkaline mineral filtration in one system.

**QUOTATION ONLY**

Supply, installation and service requirements are reviewed for your location and equipment.

Equipment illustration. Final model and configuration are confirmed in the quotation.

## System components / treatment stages

| Stage / component | Purpose |
|---|---|
| **Sediment Filter, 10"** | Catches suspended particles such as dirt, rust, sand and sediment before water reaches the finer stages. |
| **GAC Filter, 10"** | Granular activated carbon helps reduce chlorine, unwanted tastes and odours. |
| **Carbon Block Filter, 10"** | An extra carbon stage that further improves water quality and protects the RO membrane. |
| **Booster Pump** | Keeps up the pressure the RO membrane needs to work well. Power 110/220V, frequency 50/60Hz. |
| **RO Membrane** | The main purification stage. It is designed to reduce dissolved salts, minerals and other impurities. |
| **Taste & Odour Filter** | A post-filtration stage that improves the taste and smell of treated water before it reaches your tap. |
| **UV Filter** | An extra way to treat microorganisms in water, without adding chemical disinfectants. |
| **Bio-Cera Alkaline Filter** | Can add selected minerals back to the treated water and may adjust its pH, depending on the media and configuration. |

## The right system, not the most stages

We supply purification solutions for homes, businesses and industry across Dubai and the UAE. We choose a system around your actual water needs, instead of simply recommending the one with the highest number of stages.

Regular maintenance keeps a multi-stage purifier working properly. Replacement intervals depend on water quality, daily use, filter type and usage. As a guide, home systems may need servicing every 3 to 6 months, while individual filters and membranes can differ. We will help you work out the right filters and schedule.

## A complete drinking-water solution

Aqua Best offers 8-stage purification systems for homes, villas, offices and other residential uses in Dubai and across the UAE. The system brings together sediment filtration, carbon filtration, Reverse Osmosis, post-filtration, UV treatment and alkaline mineral filtration.

The RO membrane reduces dissolved substances and impurities, extra stages improve taste and odour, and the alkaline stage can add minerals back depending on the setup. Final water quality depends on the incoming water, membrane condition, filter configuration and regular maintenance.

## Installation and handover checklist

• Share your location, water use, incoming-water information and the required flow or daily output.

• Send installation-space photos and confirm the proposed model's water, power and drainage requirements.

• Ask the quotation to list the purifier, any tank and accessories, fitting work, consumables and handover instructions.

## Common product questions

### Can I request a quotation?

Yes. Tell us your property type, water requirements and preferred system, and we will help you choose a suitable option and send a quotation.

### Do you install in Dubai?

Yes. We provide installation and maintenance for water purification systems in Dubai and across the UAE.

## Quotation, installation & after-sales support

| | |
|---|---|
| **Pricing** | Quotation only. The written proposal identifies the equipment and included work. |
| **AMC / servicing** | Ask for an equipment-specific maintenance scope, consumables, exclusions and visit arrangements. |
| **Warranty** | Request the written warranty for the selected model, with coverage, exclusions and claim procedure. |

### Before requesting a quotation

Send your UAE location, intended use, water information, required flow or daily output, and photos of the installation space. For replacement parts, include the existing model and component labels.

Published ratings describe the listed equipment or configuration. Actual performance depends on feed water and operating conditions. Confirm the exact model, current specifications and manufacturer documentation in the quotation.

ANNUAL MAINTENANCE CONTRACT

# AMC coverage and terms

AQUA BEST WATER TREATMENT EQUIPMENT TRADING LLC

The AMC applies only to the water treatment system and service location identified in the customer's quotation or contract. It is valid for 12 months from the agreed start date. The number and timing of service visits, included consumables, and contract price are as stated in the quotation.

## 8-stage RO AMC

Four scheduled visits over 12 months. PP sediment, GAC and CTO cartridges are replaced at each visit, where fitted. One alkaline cartridge replacement and one UV lamp replacement are included during the contract.

Other cartridges, membranes, pumps, UV components, and parts are excluded unless listed in the quotation.

## Scheduled service

During a scheduled visit, Aqua Best will inspect the covered system, check for visible leaks and operating issues, and replace only the consumables specified in the contract. Service scope depends on the system model, installed configuration, and access to the equipment.

## Terms and conditions

1. The AMC covers only the visits, consumables, and work expressly stated in the quotation or signed contract.

2. Additional cartridges, media, resin, membranes, UV lamps, electrical parts, pumps, repairs, and modifications are charged separately unless specifically included.

3. Aqua Best will explain any additional recommended work and obtain the customer's approval before carrying out chargeable work.

4. The customer must provide safe access to the equipment and ensure that the required water and electrical supplies are available during the visit.

5. Service visits are arranged by appointment. If access is unavailable at the agreed time, the visit must be rescheduled subject to appointment availability.

6. The AMC does not cover damage caused by misuse, unauthorised repair, abnormal water conditions, power fluctuations, external leaks, or other causes outside the listed service scope.

7. The AMC price, payment schedule, and VAT treatment are as stated in the quotation.

8. The AMC applies to the equipment and service address recorded in the contract. Changes to the equipment or location may require a revised quotation.

9. Any warranty on replaced parts is subject to the applicable manufacturer or supplier warranty.

10. Renewal, cancellation, emergency callouts, and response times are governed by the terms stated in the quotation or signed contract.

Pricing is quotation only. Product warranty terms are confirmed separately.
