PRODUCT RANGE

# Find the right water treatment system

Aqua Best product range for homes, villas, commercial premises and industrial projects across the UAE.

QUOTATION ONLY

## Domestic RO System

A compact multi-stage RO system for the kitchen. Cleaner, better-tasting drinking water for your family every day.

View product and model options

## Commercial RO System

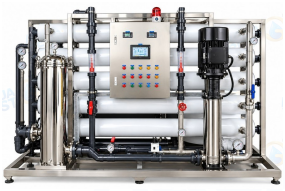
Dependable purified water for offices, restaurants, cafés and hotels, built for higher use and long operating hours.

View product and model options

## Industrial RO System

High-capacity RO plants configured around your production needs, water quality, capacity and site conditions.

View product and model options



## Sea Water RO System

Seawater desalination systems configured around your water analysis, required output and site conditions.

View product and model options

PRODUCT RANGE / CONTINUED

# Systems for your water and your space

### Filter Accessories

Replacement filters, cartridges, housings and related parts that keep your system performing and make changes easy.

View product and model options

### Alkaline RO Purifier

Eight-stage drinking-water RO with alkaline and mineral cartridges. Review the listed configuration and request a quotation.

View product and model options

### Water Dispenser

Modern hot and cold dispensers for homes, offices, reception areas and other commercial spaces.

View product and model options

### Water Softener

Treats incoming water to reduce the scale and mineral deposits that hard water leaves in pipes, taps, heaters and appliances.

View product and model options

PRODUCT RANGE / CONTINUED

# Systems for your water and your space

### UV Water Sterilizer

Adds a treatment stage that uses ultraviolet light to control microorganisms, with no chemicals. Works alongside other filters.

View product and model options

### Big Blue Jumbo Filter

High-flow housings with large filter capacity that remove sediment, dirt and rust particles from incoming water.

View product and model options

### Whole House Water Filter

Treats water as it enters the property so every tap gets filtered water. Stages are chosen for sediment, chlorine and taste.

View product and model options

### Containerized RO System

A complete RO plant inside a durable, transportable container. Ideal for remote, temporary and industrial sites.

# Systems for your water and your space

### Dosing Pump Water System

Accurate, controlled dosing of treatment chemicals, sized to your system capacity and operating conditions.

View product and model options

### Copper & Silver Ionization

Uses controlled copper and silver ions to help manage microbial growth in selected commercial and institutional systems.

View product and model options

### Brackish Water RO System

Reduces dissolved salts and impurities in salty water. The right design depends on feed water, capacity and recovery rate.

View product and model options

### Pentair Everpure

Water filtration systems and replacement cartridges for foodservice, beverages, ice machines and drinking water.

View product and model options

CHOOSING YOUR SYSTEM

# Plan the equipment and the full installation

Compare systems by their treatment purpose, water conditions, usable capacity and maintenance needs. A stage count or equipment name alone does not establish suitability.

## Match the system to the intended use

| Your requirement | Product families to discuss |
|---|---|
| **Drinking and cooking water** | Domestic RO purifiers and compatible drinking-water filters. |
| **Whole-property treatment** | Main-line filtration, multimedia filters and water softeners, selected for the water and flow. |
| **Commercial demand** | Commercial RO, dispensers and application-specific filtration. |
| **Industrial or saline feed** | Industrial, brackish-water or seawater RO, selected for the actual source analysis. |
| **Existing equipment care** | Replacement filters, membranes, UV components and compatible spare parts. |

## Find the right system

Whether you want purified drinking water, whole-house filtration, reverse osmosis, UV disinfection, softening or a larger commercial plant, you will find it here. For desalination projects, explore seawater RO systems in the UAE and send the source analysis, production requirement and site details for a quotation.

A compact multi-stage RO system for the kitchen. Cleaner, better-tasting drinking water for your family every day.

## How to choose the right system

The best system depends on your water source, property type, daily use and the treatment you need. A villa might want whole-house filtration with a softener, while a kitchen may only need an under-sink RO purifier.

Restaurants and offices usually need higher-capacity equipment, and industrial sites often call for customized RO or specialized treatment. We will help you compare options before you decide.

## Installation and handover checklist

• Share your location, water use, incoming-water information and the required flow or daily output.

• Send installation-space photos and confirm the proposed model's water, power and drainage requirements.

• Ask the quotation to list the purifier, any tank and accessories, fitting work, consumables and handover instructions.

## Common product questions

### How often should filters be replaced?

It depends on the filter type, water quality, daily use and the manufacturer's advice. Regular inspection and timely replacement keep filtration performance and efficiency up.

### What is the best water filtration system in the UAE?

No single system is best for every property. It depends on your water quality, usage, property size and treatment needs. RO suits drinking water, villas may benefit from whole-house filtration or softening, and commercial or industrial sites may need higher-capacity treatment.

## Quotation, installation & after-sales support

| | |
|---|---|
| **Pricing** | Quotation only. The written proposal identifies the equipment and included work. |
| **AMC / servicing** | Ask for an equipment-specific maintenance scope, consumables, exclusions and visit arrangements. |
| **Warranty** | Request the written warranty for the selected model, with coverage, exclusions and claim procedure. |

### Before requesting a quotation

Send your UAE location, intended use, water information, required flow or daily output, and photos of the installation space. For replacement parts, include the existing model and component labels.

Published ratings describe the listed equipment or configuration. Actual performance depends on feed water and operating conditions. Confirm the exact model, current specifications and manufacturer documentation in the quotation.

ANNUAL MAINTENANCE CONTRACT

# AMC coverage and terms

AQUA BEST WATER TREATMENT EQUIPMENT TRADING LLC

The AMC applies only to the water treatment system and service location identified in the customer's quotation or contract. It is valid for 12 months from the agreed start date. The number and timing of service visits, included consumables, and contract price are as stated in the quotation.

## Domestic RO options

Four scheduled visits per year for the listed 6, 7 and 8-stage RO plans. Each visit includes replacement of the PP sediment, GAC, and CTO cartridges, where fitted.

6-stage RO: No additional replacement specified.

7-stage RO with UV: 1 UV lamp replacement during the 12-month contract.

8-stage RO: 1 alkaline cartridge replacement and 1 UV lamp replacement during the 12-month contract.

Other cartridges, membranes, pumps, UV components, and parts are excluded unless listed in the quotation.

## Scheduled service

During a scheduled visit, Aqua Best will inspect the covered system, check for visible leaks and operating issues, and replace only the consumables specified in the contract. Service scope depends on the system model, installed configuration, and access to the equipment.

## Terms and conditions

1. The AMC covers only the visits, consumables, and work expressly stated in the quotation or signed contract.

2. Additional cartridges, media, resin, membranes, UV lamps, electrical parts, pumps, repairs, and modifications are charged separately unless specifically included.

3. Aqua Best will explain any additional recommended work and obtain the customer's approval before carrying out chargeable work.

4. The customer must provide safe access to the equipment and ensure that the required water and electrical supplies are available during the visit.

5. Service visits are arranged by appointment. If access is unavailable at the agreed time, the visit must be rescheduled subject to appointment availability.

6. The AMC does not cover damage caused by misuse, unauthorised repair, abnormal water conditions, power fluctuations, external leaks, or other causes outside the listed service scope.

7. The AMC price, payment schedule, and VAT treatment are as stated in the quotation.

8. The AMC applies to the equipment and service address recorded in the contract. Changes to the equipment or location may require a revised quotation.

9. Any warranty on replaced parts is subject to the applicable manufacturer or supplier warranty.

10. Renewal, cancellation, emergency callouts, and response times are governed by the terms stated in the quotation or signed contract.

Pricing is quotation only. Product warranty terms are confirmed separately.
